“ Everything in the universe has rhythm. Everything dances ~Maya Angelou.
The dance may be over but the rhythm will never fade.
And when great souls die,
after a period peace blooms,
slowly and always
irregularly. Spaces fill
with a kind of
soothing electric vibration.
Our senses, restored, never
to be the same, whisper to us.
They existed. They existed.
We can be. Be and be
better. For they existed.

I am at peace, as you are at peace, moving on to your next journey, with newly earned wings. Your smile, nor laugh, touch, hug, love, to ever be silenced from my soul, as over the years we became a bond of one. I loved you as fiercely as one could a grandmother, and vice versa. I am so grateful for the 52 years I was blessed with your love, presence and the splendid memoires. Amaya, your great granddaughter is beyond grateful for the 16 years you wove stories, saved ice cream cones for her, joked with, and taught her the beauty, solace and fragility of her wise elder beloved lil granny. She nor I will never, ever forget. I promise. Lastly I thank you for being my husbands second "Mom" and loving him like no other, your favorite man, as you would call him when he entered your room, arms outreached for immediate hugs. The last 7 years our monthly meetings so profound and the truest of blessings. I love you.

Fly high. Love Diana, Amaya and Dale
