“ I have fond memories of Dr. Adolphson not only because I had classes with her, but had several friends who received good counsel and guidance from her. She was such a blessing to JBU and the Siloam Springs community. I think of her as one who kept the faith to the end and a good reward is now hers in heaven, She was such an inspiration to us all. She will be missed,

“ What a treasure Dr. A. was in my life! She gave such wise counsel, and helped my husband and I prepare for a life of marriage together. Scott and I are coming up on 30 years in September, and we can thank her for her graciousness in our lives. She was also an amazing mentor, who encouraged me and loved me, and helped me get into graduate school. What a difference a godly woman can make on one's life, and that woman was Dr A! You are loved, and will be missed, but what a homegoing you must be having!

“ I considered Ida a friend during the years I attended First Presbyterian Church. She was a kind, gentle person who had a huge smile for everyone. I shall think of and feel blessed that I knew her.

“ I remember taking classes with Dr. Adolphson as an undergraduate student and seeing that I could have a love for God and learn effective ways to help others at the same time. Her selfless and professional teaching were an example to me as I continued on in the counseling field.

“ Peter, I (and my daughter) went to AR to go to the funeral, it was very special! They talked about how encouraging, and loving she was. Thank you for sharing your thoughts, I agree whole heartedly! Blessings I hope you are well.

“ I can think of only a handful of people who've had a dramatic impact on my life. Dr Ida Adolphson was one of those individuals. She was one of my college professors at JBU. Most importantly she was my college advisor who went above and beyond class schedules and career direction. She was a mom-like mentor while away from home, giving wise counsel, guiding me through issues both emotional and spiritual. If anyone pushed and pulled me through college, it was Dr A! She believed in me.
