“ *To my "Little Brother"; who was full of life and often mischievous but had his moments many of us loved. He didn't do anything half way, such as his passion for old cars.*

*He could think "outside the box". Still remember the bees and hive we enjoyed watching that were actively producing honey and quite visible --- at his kitchen table after he glassed in that wall where the bees took up residence.*

*An especially sweet memory was planning together Dad & Faye's 25th wedding anniversary celebration in Alvie's front yard. Though it was hot outside, lots of friends & relatives turned out to enjoy the special occasion.*

*I will miss him and hope he made peace with God so that one day we can see one another again. Love you "little brother".*
