RE

“ So shocked and saddened to see this has happened. From first knowing B.J as the onery older brother of one of my dearest friends in high school to a person who would be right there if you needed help. He and a buddy saw that my car and I got home from town one night when I stepped in a hole and twisted my ankle so badly I couldn't put any weight on it. (My girlfriends went on to the street dance at Lincoln...thanks guys!) Anyway, they had to be brave when my dad stepped out on the porch to see why I was hurt.....they both had to help me hobble to the house.....I was on crutches for 2 weeks!!

He changed a flat for me by the HS a few years laterjust happened to be in the right place at the right time....thank goodness. And then, years later, when I sold insurance, I had just left Louie Chances (I believe my memory is correct) and had a flat. This tire had never been changed and I could not budge the lug nuts. I called Jack and Lila Mae's to see if Jack would come over and help me.....and he showed up with BJ in tow and made short work of that flat.

My condolences to you all, he was one of a kind, for sure.
