“ I will never forget how we met in 1987 I had just moved to a new house he used to drive behind the school bus and I would wave or make faces or blow kisses at him from back of bus, I would get off the bus and he would drive around the block (or so I thought lol) then one day I got off the bus and there he was going in the front door of my next door neighbors he smiled and waved. I was so embarrassed then our families met and we all became friends and family and he became a brother to me and my brother buddy. And we have been family ever since. I love you and will miss you so much my friend my bub.
