Claude was a genuinely kind, decent, intelligent and generous man who always gave me laughter and hope for the future of goodness. I hold him warmly in my heart and can't think of him without smiling and feeling better about myself and life and everyone else. God keep him forever. I expect to talk to him again one fine day.--Jim Tucker

“ Certainly saddened to hear that big ol' teddy bear has passed. In the tradition of his Grandfather Strickland, he was a great storyteller, as are others in his family. I am honored to have called Cousin Claude a friend. Godspeed!

“ Claude was one of a kind. I have so many happy memories of summer visits spent canoeing, horseback riding, swimming in Flint Creek and learning about farm life (and thanking God my milk came in a jug 😊). He always took the time to entertain us and share stories of our relatives we may not otherwise have heard. He always reminded me of a big strong teddy bear. I will miss him and look forward to seeing him and the rest of the family in Heaven one day. Sending much love and condolences to my family!

“ My Uncle Claude from my perspective:
As a little girl I was as tall as the clouds as we would walk across the road to wear he would milk Julie the cow, me riding on his shoulders him telling his infamous stories. As a child he was one of my best friends. Stopping for burgers in the middle of the day for no reason, going to Six Flags, or going swimming in Flint Creek. I thought I could do anything because he really believed I could! Even Algebra:) He would tutor me and it was the only time that when we sat next to each other in the living room chairs I was the one dozing off and he was the one talking. I used to say to myself "This poor man really thinks I'm going to understand these problems!" Somehow I did finally understand. I think it's because he was the most patient and caring man I've ever met. (And a little stubborn:)

“ I remember Mr. Barnett taking his lunch hour to help me with difficult work more than once. He would stay in the class room eating a sandwich and being very patient. He was great teacher.

“ I had Claude as a mathematics teacher at Kansas High School from 1975 to 1980. The subjects I had under Claude were 7th and 8th grade math, Algebra and Geometry. He sure knew his mathematics and was very knowledgeable. And I still remember the one thing he used to say on a daily basis to his students if they gave him a bad time: I'M GONNA TAKE A BOARD TO YOU! Fortunately, he never took a board to me.
