“ *Judy & Pixie,
I was so sorry to hear about Clyde. She was a special lady. I remember when C.J. and I first got married she and her mother came to see us and I was just a 'young bride' and they just took me in like I had always been in the family. Over the years our paths crossed many a times and your mother would always tell me something funny. I was not able to come to the funeral - but I have thought of your family during this time.*

Clyde was the last of that generation. She will be missed.
