You have the brightest eyes and the wonderful smile that goes on and on...I thank you for taking care of my daughter and grandkids..you did something a lot of men wouldn't and that's take in 3 kids to raise as your own and I can't say enough how wonderful you were with them! One if my favorite things is whenever I came over and cooked for you ...you always praised me as the best mother in law ever and loved the food! Thanks for that Code man!*

“ Me and Caitlin met your for the first time when you and Amanda and us all went on a date to the movies together 🙄 You two made us wait at a locked car in the cold for 10 min cause you were awkwardly talking. So me and Caitlin took it upon ourselves to yell "kiss already so we can get in the car!" Across the parking lot. Good times 🤦 I'll never forget our first date ❤️

“ My wife, Jean and I, want to extend our heartfelt sympathy to all of Cody's family and friends in your loss! Last year, at our church's Fall Fest, we met Cody's father, Dickie and his wife, Janie. We were so moved and connected so much with Dickie as he shared just a small part of Cody's life and the family's struggle through his illness..Please know that we are thinking of and praying for all of you at this time! In Christ! Pastor Wayne and Jean Bland and all the congregation at Twin Springs Nazarene Church.

“ *I never meet Cody. But I feel I know him. His wife is my daughters best friend since they were very young. And now their daughters are best friends. From what I hear about him I know he is a fine young man. I am so sad that he had to go be with Jesus at sch a young age. But I am sure his spirit is still with us. Just watch for the butterflies. That is Gods way of letting his spirit be with you. Stay strong Mandi. It will not be easy. But just remember all the time you had together and the special memories you two made. And your love you had will keep you strong. The little breeze you feel on your cheek is a kiss from Coy. Love you kiddo. Just wait and you will see the butterflies and feel the soft breezes.*
