“ *What a great loss to all that knew him. Drexel was a great help to my family I when we were in need. He and Barbara let us move into the farm house when they moved into their new home in Gentry. I was recovering from serious back surgery and just moved my family back to Arkansas from Texas. At the time I was unable to work, they took us in so to speak. I begin to perform small tasks on the farm and watched over the livestock. Drexel had a Dairy and stock cattle operation. As time and healing progressed My wife and I took on more of the farm work allowing Drexel to enjoy more time with his family and other pursuits. What wonderful people they were to us. The Halls were like family to us. Drexel later retired completely from the dairy and cattle business and my wife and I moved on to greater success. What a blessing to have known Drexel and his family.*
