“ I only met Harold over a weekend at the camp. He was by far the best camp host Ive ever met. Really could tell that he cared for the facility as if it was his and we felt like he was our host. he brought over a portable fire pit for us to use over the weekend. I ended up asking for one for x-mas and received it. I'll think of Harold each time I light it. Terrible loss. Condolences to his family, the community and to everyone that crossed paths with that wonderful man.

“ *We are so sorry for your loss. We felt like Harold was a part of our family. Harold was so kind and took care of us while we camped at Talihina State Park. He worked hard to make sure the park was beautiful and clean. Harold would stop by every morning around 6:00 am after cleaning the bathrooms to have coffee with me. I will miss him for coffee time and our chats. The world lost a very kind and considerate man. He now has his crowns and can chat with Jesus. We miss you Harold!*

“ *Sending my condolences on the loss of Harold. I met him through my love of the Ouachita Trail and would make a special trip to the State Park to talk with him every time I was in the area to hike or do work on the trail. He was always positive and upbeat and had become a staple in the OT hiking community. His kindness and knowledge were legendary. I know he will be missed by all who knew him.*
