“ I have the wonderful priviledge of being a nurse at Valley Springs, and caring for Martha. Martha and I had developed a friendship, and I do and will miss Martha very much. Martha and I understood each other, and I always left Martha for the last when I made my rounds so I could take some extra time with her. I loved the twinkle Martha had in her eye that spoke volumns without saying a word. What a lady that had so many talents. Martha said she would play the violin for me one day, and I do hope that will be fulfilled. May God bless and comfort you all. Thank you, Frances Lee
