“ *Mona was one of the sweetest persons I ever met. Her beauty came from the inside out. Her love for life was an example for others. She was also a person who didn't know how to say I can't do it. She gave life her best shot and I am sure she has a special place reserved just for her where she can look down and guide her family as they continue without her physically here. She will always love on in the hearts of those who loved her. She was an angel unaware.* ”

“ *I have never been so proud to call Mona my sister as I have become through her illness. She showed each and every one of our family more strength and determination than I ever knew was even possible, all without ever feeling sorry for herself or complaining when things were really hard. There is not a single person in our family that hasn't learned from her how to be strong and to cherish every moment that is given to us. She will be missed more than words can express, but we know there is a special place for her on the other side. I love you Sis.* ”
