“ My Aunt Pat loved many things in life: God, her family, her career and the many children whose heart she touched during her ministry work. I had the privilege of sharing a career with her, in which we touched lives of stranger to care for them in their time of need. We often talked medical and compared when she started nursing and the amazing advancements that were made by the time I started. My Mom and her had a special bond and were close. She loved to visit Branson and it was her favorite vacation spot. There are so many memories from childhood to now, it's hard to comprehend that she is longer with us. I know she is with God celebrating and being with everyone else who has went before her.

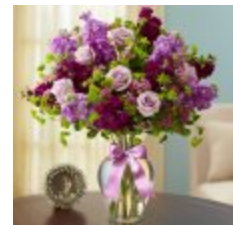

I will never forget when I met my husband, she told me he is a good man. "Now remember I approve and hope that you'll keep him around, I really like him," is what she told me. So Mark and I use to tease each other about who she loved more. I am standing my ground and still say it's Mark.

We loved you and you will always be in our hearts and memories. Thank you for loving me and for everything you supported in and gave to me.
