Richard was a great electrician/oven mechanic. I miss his smile and wit. I am thankful that I got to know him and I pray for your family during this time.

*I met Richard in 1968 at Udorn AFB, Thailand. We were in Electronic Warfare, responsible for maintaining the equipment used on the F-4 fighter and reconnaissance aircraft to "jam" SAM missiles and AAA. We became good friends and wound up working on different shifts. He was one of two people that I trusted to do the job right. If he told me the equipment was ready to go I knew it was ready. After our military days were over we worked together once again. He was one of the most trustworthy people that I have ever known. My condolences to the family. I know that his passing has left a huge void.*
